Spec 9 Interiors, Inc.

Dear NAWIC Supporter:

On May 2-3, 2008 the Space Coast Florida Chapter #355 of the National Association of Women in Construction will host the NAWIC Region 3 Annual Forum. It will be held at the Crowne Plaza Melbourne Oceanfront Hotel, 2605 North A1A, Indialantic, Florida 32903.

Forum is the annual meeting for all fourteen (14) NAWIC Chapters located in Region 3, and represents a membership of over 400 women that are actively employed in the construction industry here in the State of Florida. It is a two day event that includes educational construction related workshops, networking opportunities, keynote and motivational speakers, business meeting, and a closing banquet and awards ceremony.

This is a great opportunity for you and/or your company on many levels:

- To put your company and its goods and services in front of 120+ women who own, manage, or are employed by General Contracting and Subcontracting firms, Material Suppliers, and other construction related services. These women make purchasing and hiring decisions every day on behalf of their companies.
- To reach the NAWIC Members, Chapter Presidents, and Member Companies in Region 3, as well as National Officers of the organization. NAWIC is an association whose sole purpose is to promote and enhance the success of women in the construction industry.
- To show your organization's support for women and demonstrate your outreach efforts to women in the construction industry.

Enclosed for your use is the Advertisement and Sponsorship Levels for Forum 2008. Note that there are various levels of sponsorship available through advertising in the Forum Program up to an including on-site meeting-and-greeting as an exhibitor during breaks in the General Session and an attendee at the Saturday evening banquet. Exhibitor Tables are limited, so you are encouraged to sign up early.

The theme for Region 3 Forum 2008 is that the "Atlantean Legend is Alive and Well and Prospering Here in the Land of Florida (Region 3), and the Treasures of the Sea will be Revealed".

Please join us for this important event.

**Core Purpose:** To enhance the success of women in the construction industry.
